

Child & Family Treatment Teams

IN TAILORED CARE MANAGEMENT

JULY 19, 2022

DESCRIPTION

As a part of the NC Medicaid Transformation to Tailored Care Plans, Care Managers will be responsible for creating child and family treatment teams. These teams will address multiple systems of care, including child welfare, school, and juvenile justice systems. This program will provide training on what a child and family treatment team is and how to build one with public, private, and natural supports stakeholders. Participants will explore the fundamental elements necessary for providing family-driven, strength-based Child and Family Team Meetings. This 3-hour training will provide an introduction of the paradigm shift from conventional practices to youth-guided, family-driven best practices. We will provide techniques to foster healthy relationships amongst various community partners and systems. The training will also share some basic information about the High Fidelity Wraparound Model and approach.

AUDIENCE

Behavioral health providers and administrators, NC licensed clinical mental health counselors, psychologists, social workers, substance use counselors, behavioral health nurses, AMH+/CMA staff, and other professionals interested in this subject.

OBJECTIVES

Upon completion, participants will be able to:

- Define “Family-Driven” practices for Child-Family Treatment Team meetings
- List at least three necessary paradigm shifts to achieve effective outcomes with youth and families
- Explore ways to foster effective relationships among various systems, including juvenile justice, child welfare, and school
- Explain the model for High Fidelity Wraparound
