

# ADVANCED CARDIOVASCULAR LIFE SUPPORT (ACLS)

## Initial and Recertification Provider Courses 2024

REGISTER ONLINE

### DESCRIPTION

The Advanced Cardiovascular Life Support (ACLS) Initial and Recertification Provider courses are designed for healthcare providers who either direct or participate in the resuscitation of a patient, in or out of the hospital setting.

The goal of the ACLS Provider course is to improve the quality of care provided to the adult victim of a cardiac arrest or other cardiopulmonary emergency. Students will practice the application of these and other skills in simulated cases, and will practice both team leader and team member roles.

### AUDIENCE

Our target audience includes physicians, nurses, pre-hospital emergency personnel, respiratory therapists, dentists, and other professionals who may respond to a cardiovascular emergency.

### OBJECTIVES

**Upon completion, participants will be able to:**

- Recognize early management of peri-arrest conditions that may result in cardiac arrest or complicate the resuscitation outcome
- Initiate early management of peri-arrest conditions that may result in cardiac arrest or complicate the resuscitation outcome
- Demonstrate proficiency in providing BLS care, including prioritizing chest compressions and integrating AED use
- Manage cardiac arrest until the return of spontaneous circulation, transfer of care, or termination of resuscitation
- Identify ischemic chest pain and treatment strategies
- Expedite the care of patients with acute coronary syndromes
- Recognize other life-threatening clinical situations, such as stroke, and what effective initial care and transfer criteria are needed to reduce the chance of disability and death
