SESSION 2: SEPTEMBER 2019

LOCATION MAHEC Mary C. Nesbitt Biltmore Campus
121 Hendersonville Rd, Asheville, NC 28803

DATE Friday, September 27, 2019
REGISTRATION PROGRAM 1:00 pm–1:30 pm
1:30 pm–6:00 pm (*refreshments provided*)

[CLICK HERE TO REGISTER](#)

DESCRIPTION

Opioid dependence is epidemic in the United States. While progress has been made in training providers, the gap in providing effective treatment of opioid use disorders continues to widen—moving beyond heroin addicted individuals to a much larger and diverse segment of the population. This increase is predominantly due to an alarming increase in addiction to prescription opioid analgesic medications. Buprenorphine, the most recent addition to the pharmacotherapies available to treat opioid dependence, is novel among the opioid pharmacotherapies because of its partial agonist properties. It has been placed on Schedule III and is available by prescription from a physician's office-based practice.

Recognizing the impact of this addiction, as well as learning how to treat opioid use disorders, are important steps in combating this ever growing medical problem. To obtain the waiver to prescribe, providers are required to take specialized training. PCSS-MAT uses the Half-and-Half format (first, 4.25 hours of face-to-face training with an instructor, followed by 3.75 hours of on-your-own-training that must be completed along with a post test). This meets the training requirements for physicians; however, additional training is required for advanced practice providers. The training focuses on the specifics of treating patients with opioid use disorders in office-based settings and clinical vignettes to help trainees think through "real life" experiences in opioid use disorders treatment. Once the waiver training is completed in full, participants will receive a CME certificate of attendance from AAAP.

This program includes up to 2.0 hours of controlled substances content. Per NCAC rules: As of July 1, 2017, all physicians (other than residents), physician assistants, nurse practitioners, podiatrists, and dentists who prescribe controlled substances must satisfy the controlled-substance prescribing CE requirements as set forth by their licensing boards. Requirements vary by discipline and board.

Early registration deadline: 7 days prior to program start.

PROGRAM FEE \$35.00
MAHEC EMPLOYEE FREE (*must register in order to attend*)
MAHEC RESIDENT FREE (*must register in order to attend*)

AUDIENCE

Recommended for prescribers in primary care, emergency medicine, pain management, psychiatric, HIV, and addiction medicine.

OBJECTIVES

At the conclusion of this activity, participants should be able to:

- Review addiction treatment in office-based practices
- Discuss the pharmacological treatments of opioid use disorder
- Determine what medical record documentation must be followed
- Discuss the process of buprenorphine induction as well as stabilization and maintenance techniques
- Describe how to take a patient history and evaluation
- Review safety concerns and drug interactions

in collaboration with

(AAAP is the data sponsor for this MAT training)

CREDITS

CME Accreditation: This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of AAAP and Mountain Area Health Education Center (MAHEC). AAAP is accredited by the ACCME to provide continuing medical education for physicians.

Credit Designation: American Academy of Addiction Psychiatry designates this Other activity ("Half and Half." Half face-to-face live course and half online course) for a maximum of **8 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Method of physician participation in the learning process: Credit will only be awarded for completing both the "first" and the "second" half of the training. To be awarded a maximum of **8 AMA PRA Category 1 Credits™** and a Buprenorphine Training Completion Certificate, you must complete 4.25 hours of the first live half and 3.75 hours of the second enduring half and receive a minimum cumulative score of 75% on the examination. No partial credit will be awarded for this training.

MEDICAL COURSE DIRECTOR

Blake Fagan, MD, MAHEC, Asheville, NC

FACULTY

Blake Fagan, MD, completed his undergraduate education at the University of Missouri–Columbia, medical school at Vanderbilt University School of Medicine in 1998, and family medicine residency at the Mountain Area Health Education Center (MAHEC) in Asheville, NC in 2001. He has been a faculty member at MAHEC since 2001. During that time, he has been the co-clinical director, assistant residency director, and the residency director. Currently, he is the Chief Education Officer and Interim Medical Director of the Family Health Center at MAHEC, and a Professor with the Department of Family Medicine, UNC Health Sciences at MAHEC.

Funding for this initiative was made possible (in part) by grant nos. 5U79TI026556-02 and 3U79TI026556-02S1 from SAMHSA. The views expressed in written conference materials or publications and by speakers and moderators do not necessarily reflect the official policies of the Department of Health and Human Services; nor does mention of trade names, commercial practices, or organizations imply endorsement by the U.S. Government.

REGISTRATION

Early registration deadline: 7 days prior to program start.

The event registration fee is \$35.00 or FREE for MAHEC Employees and MAHEC Residents (must register in order to attend). These fees include administrative costs, educational materials, and either refreshments or dinner. If registration is received after the deadline, the total fee will be the registration fee + \$15.00.

MAHEC has a pay-up-front policy for all CE programs. The only exceptions will be for pre-approved programs where an individual payment plan is appropriate. Registrations received without accompanying payment will not be processed and participants who have not paid the course fee will not be admitted into the program.

Cancellations received at least two weeks in advance of the program date will receive a full refund unless otherwise noted. Cancellations received between two weeks and up to 48 hours prior to the program date will receive a 70% refund unless otherwise noted. No refunds will be given for cancellations received less than 48 hours prior to the program date. All cancellations must be made in writing (fax, mail, or email). Substitutes can be accommodated in advance of the program.

DIRECTIONS

MAHEC Mary C. Nesbitt Biltmore Campus
121 Hendersonville Road, Asheville NC 28803

From I-40 E: Take Exit 50 and turn left onto Hendersonville Road.

From I-40 W: Take Exit 50B and merge onto Hendersonville Road.

At the first light, turn left into the DoubleTree Hotel complex. Turn left (away from the hotel). You will see a steep driveway on your right. Turn right and go up that driveway to the MAHEC Biltmore Campus.

From 19-23 (I-26): Take 240 East to Exit 5B (Charlotte Street). Exit right onto Charlotte Street. At the 4th light, make a left onto Biltmore Avenue. Proceed through 8 traffic lights. At the 9th light, turn right into the DoubleTree Hotel complex. Turn left (away from the hotel). You will see a steep driveway on your right. Turn right and go up that driveway to the MAHEC Mary C. Nesbitt Biltmore Campus.

MAHEC assumes permission to use audio, video and still images from this program for promotional and educational purposes. Please speak with a staff member if you have any concerns.

DESCRIPTION

Opioid addiction is a chronic, relapsing brain disease that affects millions of Americans and produces a tremendous burden on the healthcare system. In 2002, U.S. physicians gained the opportunity to treat opioid-addicted patients with buprenorphine in primary care settings, commonly referred to as office-based opioid treatment (OBOT). OBOT has been shown to be effective in primary care settings and impacts public health through the reduction of opioid use, opioid overdose mortality, and transmission of infectious diseases. However, it remains underutilized.

One consistently cited barrier preventing OBOT expansion is lack of adequate clinical support given the additional needs for patient monitoring. Successful medication-assisted treatment (MAT) requires a team-based approach just like treatment for other chronic diseases. In addition, treatment is more effective when providers can use a trauma-informed and gender-responsive treatment plan.

The goal of this companion program to the AAAP Clinical Support System: Buprenorphine Office-Based Treatment for Opioid Use Disorders (The “Half and Half” Course) is to increase the comfort level and expertise of the healthcare team by outlining a team approach, trauma-informed interventions, gender-responsive care, and making recommendations for the implementation of buprenorphine OBOT.

AUDIENCE

Recommended for nurses, mental health professionals including substance abuse counselors, social workers, psychologists, marriage and family therapists, school counselors, practice managers, program administrators, medical assistants, care managers and coordinators and other professionals interested in this subject.

OBJECTIVES

Upon completion of this activity, participants will be able to:

- Describe the presented framework of office-based opioid treatment (OBOT) including practice changes, medications used, psychosocial services, and integration/coordination components
- Utilize evidence-based interventions that are trauma-informed and gender-responsive to treat persons with substance use disorders
- Define the roles of an effective practice team, including primary care and behavioral health clinicians, working together with patients and families, and using a systematic and cost-effective approach to provide patient-centered care for opioid and other substance use disorders
- Increase medical and behavioral health professionals' receptivity and capability to work collaboratively as they evaluate and manage opioid and other substance use disorders using SBIRT (screening, brief intervention and referral to treatment)
- List key components of evidence-based and effective OBOT

Early registration deadline: 7 days prior to program start.

PROGRAM FEE \$35.00
MAHEC EMPLOYEE FREE (*must register in order to attend*)

CREDITS

NAADAC: This course has been approved by MAHEC, as a NAADAC Approved Education Provider, for educational credits. NAADAC Provider #165445. MAHEC is responsible for all aspects of their programming. Full attendance is required to receive credit from NAADAC. Approved for **4.0 hours**.

NBCC: MAHEC has been approved by NBCC as an Approved Continuing Education Provider, ACEP No. 5514. Programs that do not qualify for NBCC credit are clearly identified. MAHEC is solely responsible for all aspects of their programs. Full attendance is required to receive credit. Approved for **4.0 hours**.

4.0 CNE Contact Hours

Mountain Area Health Education Center (MAHEC) is an approved provider of continuing nursing education by the North Carolina Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. Participants must attend 80% of the activity to receive credit.

Psychologists: MAHEC is recognized by the North Carolina Psychology Board as an approved Provider of Category A Continuing Education for North Carolina Licensed Psychologists. Approved for **4.0 hours Category A**. Full attendance is required to receive credit.

CEUs: MAHEC designates this continuing education activity as meeting the criteria for **0.4 CEUs** as established by the National Task Force on the Continuing Education Unit. You must attend the entire workshop to receive CEUs.

Contact Hours: MAHEC designates this continuing education activity as meeting the criteria for **4.0 Contact Hours**. Full attendance is required to receive credit.

MEDICAL COURSE DIRECTOR

Blake Fagan, MD, MAHEC, Asheville, NC

FACULTY

Marie Gannon, LPC, LCAS, CSI, is a licensed clinical addiction specialist, professional counselor, and clinical supervisor with over 15 years of experience working with patients with addiction disorders through the lifespan. She is the Behavioral Director of MAHEC OB's Perinatal Substance Use Clinic/Project CARA. As co-founder of the MAHEC substance use clinic, her passion is providing opportunities for education to healthcare providers with the goal of reducing the stigma against addiction. When she is not working, Marie loves snuggling her two kids and reading good books.

Melinda Ramage, MSN, FNP-BC, CARN-AP, is a family nurse practitioner with focused training in high-risk pregnancy. She is a certified diabetes educator specializing in women who have type one and type two diabetes during pregnancy. She is also a Certified Advanced Practice Addictions Nurse and the Clinical Director of MAHEC OB's Perinatal Substance Use Clinic/Project CARA. She is passionate about empowering patients in directing their own healthcare and is involved in local upstream movements to readdress healthcare delivery systems. When she is not working, Melinda enjoys a good run in the woods and watching Netflix.

Zach White, LCSW, LCAS, CSI, is currently the Program Coordinator for Office-Based Opioid Treatment at MAHEC's Family Health Center. His duties include educating patients and learners on the effects of long-term opioid medication, screening patients for opioid use disorder, and providing behavioral health counseling. His interests include treating victims of trauma and adverse childhood experiences, mindfulness, acceptance and commitment therapy (ACT), and substance use disorders. He has worked in Western North Carolina in both inpatient and outpatient settings since graduating with his MSW from Western Carolina University in 2010.

Courtenay Wilson, PharmD, CDE, BCACP, BCPS, CPP, received her undergraduate degrees from the University of Georgia followed by her Doctor of Pharmacy degree from the UNC Eshelman School of Pharmacy. She completed an ASHP accredited residency from the Boise VAMC in conjunction with the Idaho State University School of Pharmacy. She became board-certified in Pharmacotherapy in 2012 and in Ambulatory Care in 2015. Dr. Wilson now serves as the Associate Director of Pharmacotherapy at the MAHEC Family Health Center, where she provides comprehensive medication management for patients within an interdisciplinary team setting. Her areas of interest are chronic pain management, substance use disorders, and wellness. She serves as the pharmacist for MAHEC's Integrated Chronic Pain Treatment and Training Project and is the project lead for MAHEC's Opioid Dependence Treatment Program. Dr. Wilson is heavily involved in developing and disseminating novel models of care within the ambulatory care setting. As a Professor of Clinical Education with the UNC Eshelman School of Pharmacy, her teaching responsibilities include didactic teaching and precepting pharmacy students, PGY1 pharmacy residents, medical residents, and fellows.
