NCCARE360

What is NCCARE360?

NCCARE360 is the first statewide network that unites health care and human services organizations with a shared technology that enables a coordinated, community-oriented, person-centered approach for delivering care in North Carolina. NCCARE360 helps providers electronically connect those with identified needs to community resources and allow for feedback and follow up. This solution ensures accountability for services delivered, provides a "no wrong door" approach, closes the loop on every referral made, and reports outcomes of that connection.

Benefits

Easily refer and connect your clients to local services in the community.

Track the outcome of the referrals and services delivered for your clients.

Improve the health and well-being of your clients through increased partnership and collaboration with partners.

Measure the impact of your organization and the services you deliver.
