- Application of a systematic approach to pediatric assessments
- Use of PALS algorithms and flowchart
- Demonstration of effective resuscitation team dynamics
- Use of the evaluate-identify-intervene sequence

## DESCRIPTION

Pediatric Advanced Life Support (PALS) is a video-based, instructor-led course that uses simulated pediatric emergencies to reinforce the important concepts of a systemic approach to pediatric assessment, basic life support, PALS treatment algorithms, effective resuscitation, and team dynamics.

The goal of the PALS course is to improve the quality of care provided to seriously ill or injured children, resulting in improved outcomes.

MAHEC assumes permission to use audio, video, and still images from this program for promotional and educational purposes. Please speak with a staff member if you have any concerns.
