

UNC ECHO for MAT

for Treatment of Opioid Use Disorder

If you would like to learn more about treating Opioid Use Disorder, please join us for one of our four ECHO clinics.

You may join any of our **four** UNC ECHO for MAT (Extension for Community Healthcare Outcomes for Medication Assisted Treatment) **clinics** to learn about providing evidence-based treatment for opioid use disorder.

No matter where you are on the decision continuum, we can help. We are offering case-based learning sessions with addiction medicine experts.

After completing a short survey, CME credits will be awarded for each hour you participate. You may join all or part of a session at any time.

- ▶ To join from PC, Mac, Linux, iOS or Android: uncsph.zoom.us/j/522252736
- ▶ To join from telephone: (669) 900-6833 or (646) 558-8656
- ▶ Meeting ID: 522-252-736

For more information, please go to our website www.echo.unc.edu or contact us by email at echo@unc.edu or by phone at (919) 966-7104.

The UNC Extension for Community Healthcare Outcomes for Rural Primary Care Medication-Assisted Treatment (UNC ECHO for MAT) is made possible by funding from the Agency for Healthcare Research and Quality (AHRQ) Grant number: 1R18HS025065-01; the North Carolina Department of Health and Human Services, and the Substance Abuse and Mental Health Services Administration Opioid STR Grant number: 93.788.
